The only visa which will gain you entry to the UK as a freelancer is Tier 1 (with an exception of EU nationals or long-term UK residence permit holders, up until Brexit). There are two Tier 1 visa pathways.

You can either apply for an [Entrepreneur visa](#) which requires an investment of at least £200000 and creating two full time jobs, or choose an [Exceptional Talent visa](#), which has no financial requirements but is more difficult to obtain.
